

Theorem: Orthogonal Vectors

Two nonzero vectors \vec{u} and \vec{v} are orthogonal if and only if $\vec{u} \cdot \vec{v} = 0$

Since $\cos(\theta) = \frac{\vec{u} \cdot \vec{v}}{|\vec{u}||\vec{v}|}$, $\vec{u} \cdot \vec{v} = 0$ if and only if $\theta = \frac{\pi}{2}$
